

# Digital Galleries

Digitising Movable Cultural  
Heritage

# Overview

- **Communicating heritage**
- Setting up a desktop studio
- Photogrammetry workflow
- Software processing
- Metadata and Archiving
- Making Digital Galleries
- Social Archiving and Social Media

# What are the benefits of digitising movable heritage

- Easy to share, disseminate and access remotely
- Be in more than one place at a time
- Provides a record of the state of the artefact at that given time
- Use for promotion of the museum and unique heritage
- Digital representation can be modified
  - Non-destructive
  - Adding colour
  - Reconstructing shape

# Type of Media

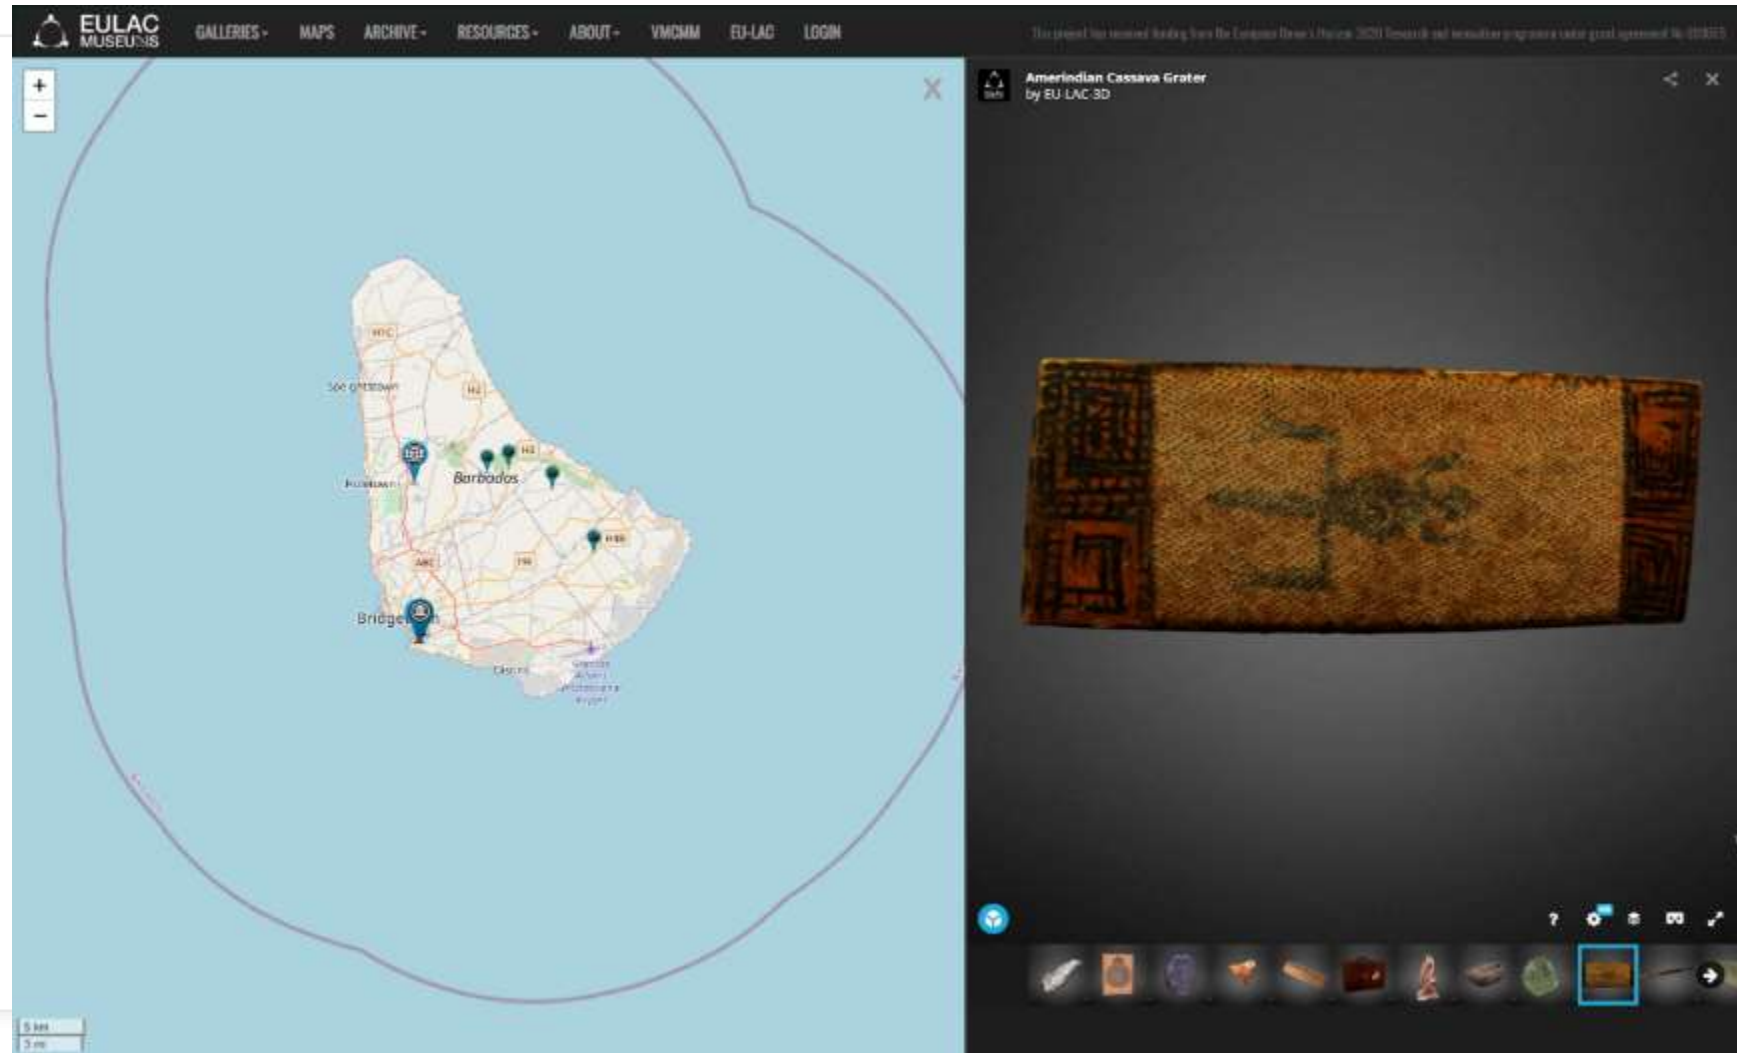

- Photograph
- 3D Model
- Video
- Preserving to former state
- Mixed media

# Context

- Timeline
- Map
- Gallery
- Scene

# Engagement

- Metadata
- Linear
- Gallery
- Interactive

# Overview

- Communicating heritage
- **Setting up a desktop studio**
- Photogrammetry workflow
- Software processing
- Metadata and Archiving
- Making Digital Galleries
- Social Archiving and Social Media

- Camera /mobile phone
- Tripod
- Clicker
- Turntable
- Lightbox
- Lights

# Desktop Studio

# Overview

- Communicating heritage
- Setting up a desktop studio
- **Photogrammetry workflow**
- Software processing
- Metadata and Archiving
- Making Digital Galleries
- Social Archiving and Social Media

# Photogrammetry Workflow

- Object Selection
- Camera set up
- Shoot photos
- Process photos

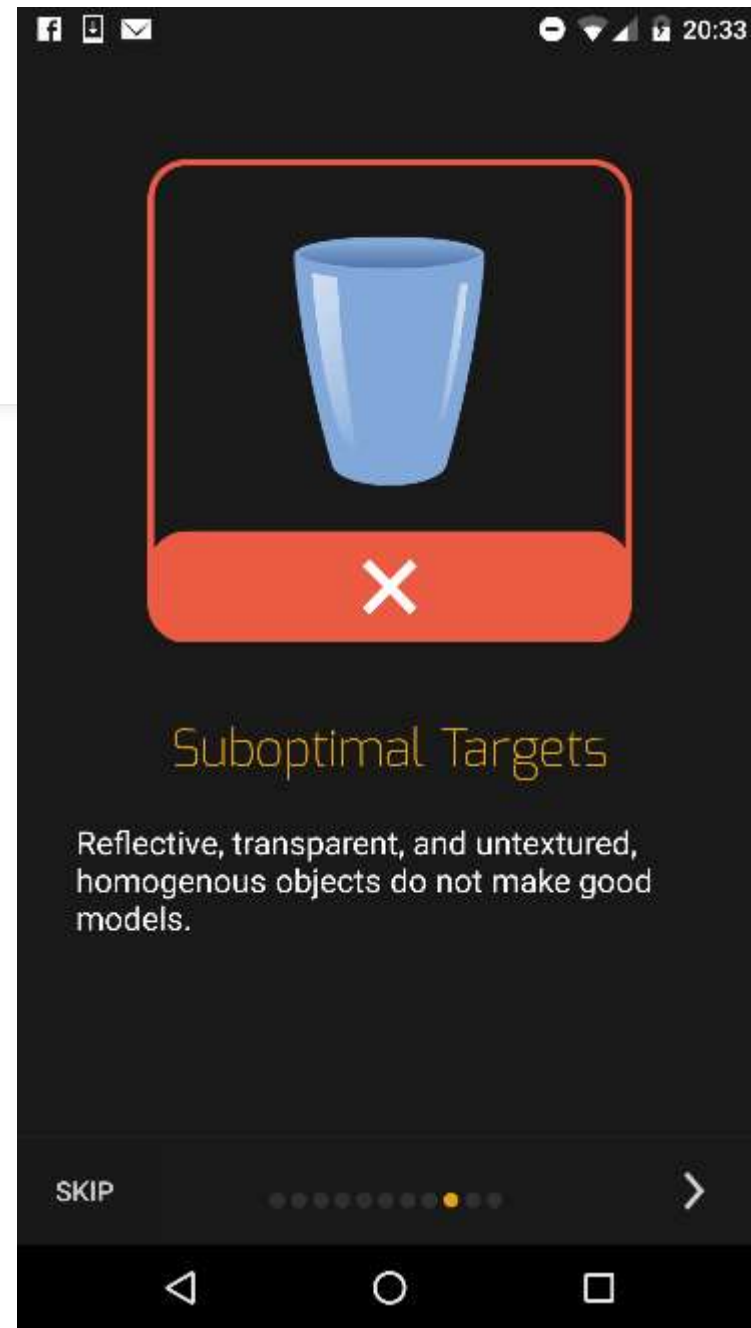

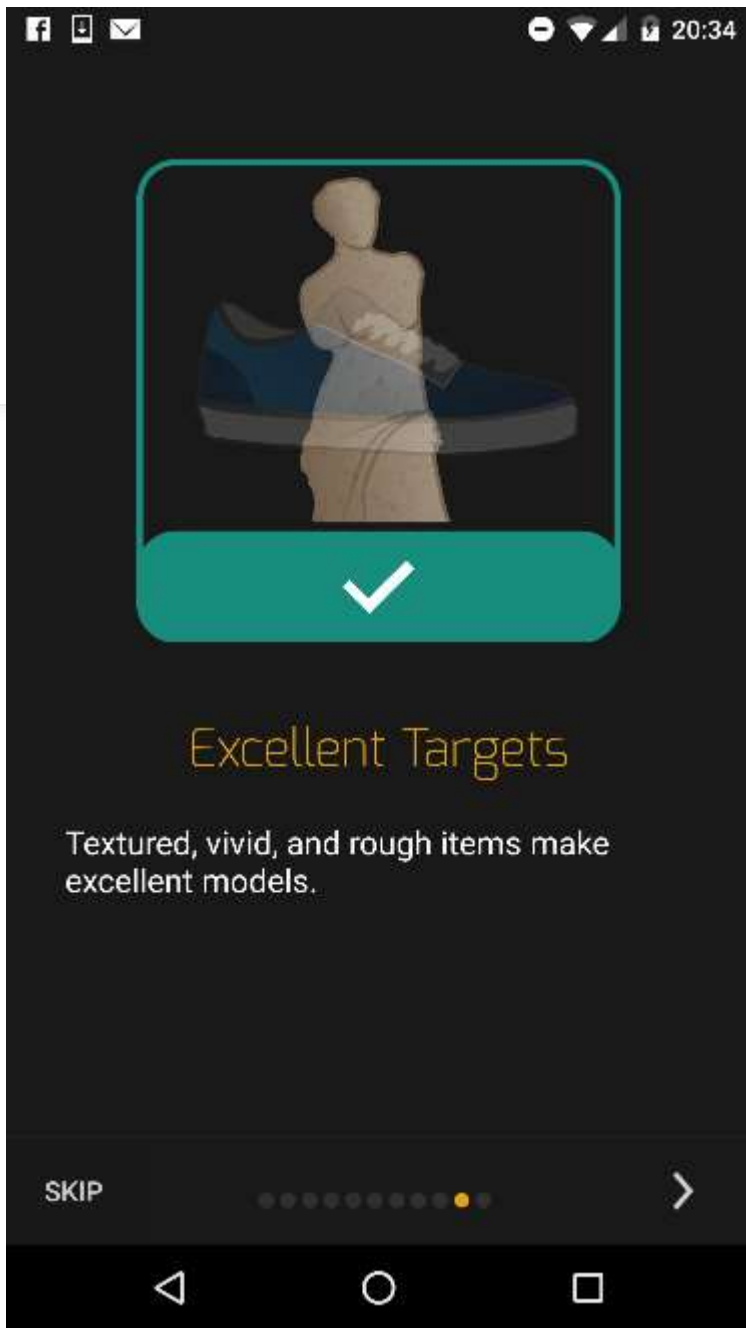

Artefact Selection

# Artefact selection

- Digitises well
  - Matte surfaces
  - Fixed position
  - Little occlusions
  - Appropriate Size
  - Features
  - Robust
- Digitises with more difficulty
  - Highly reflective, moving parts, featureless
- Start with easy objects, can build to more difficult objects with more practice and successes

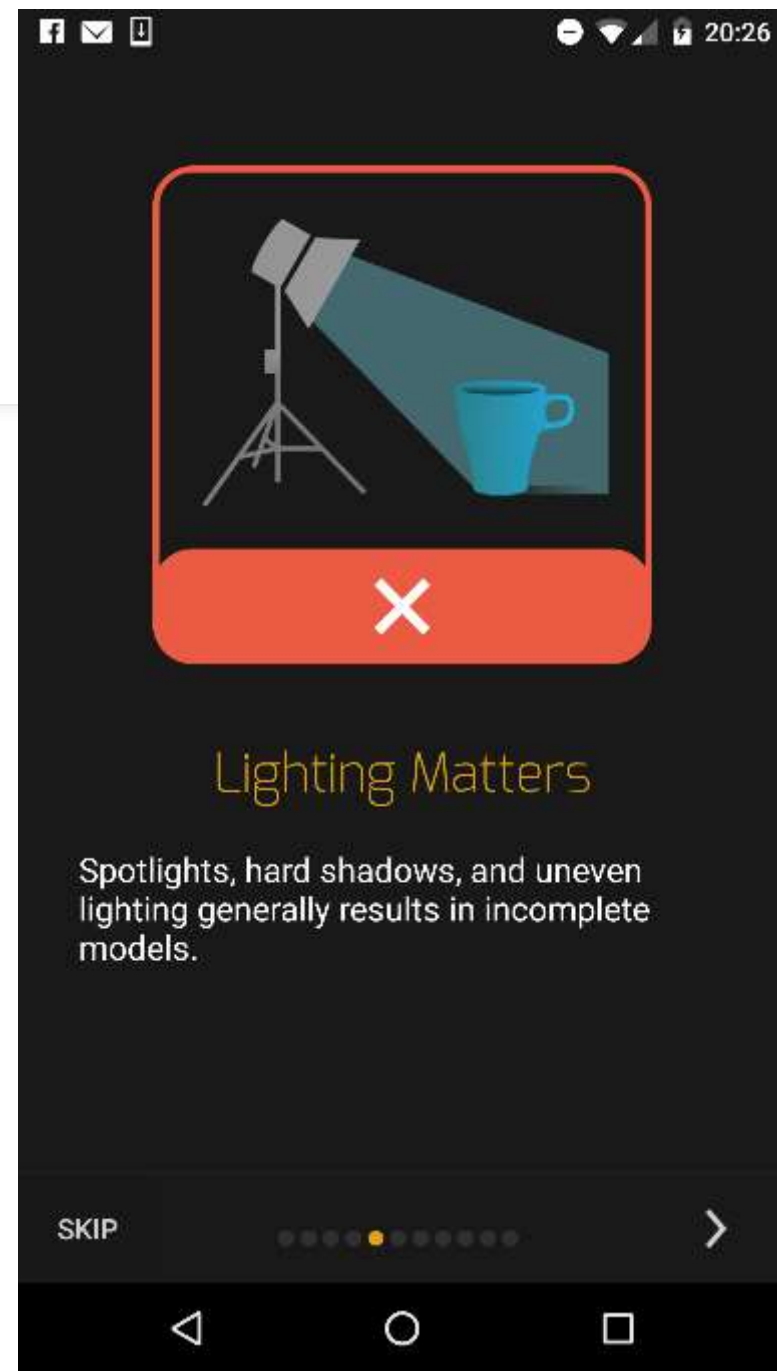

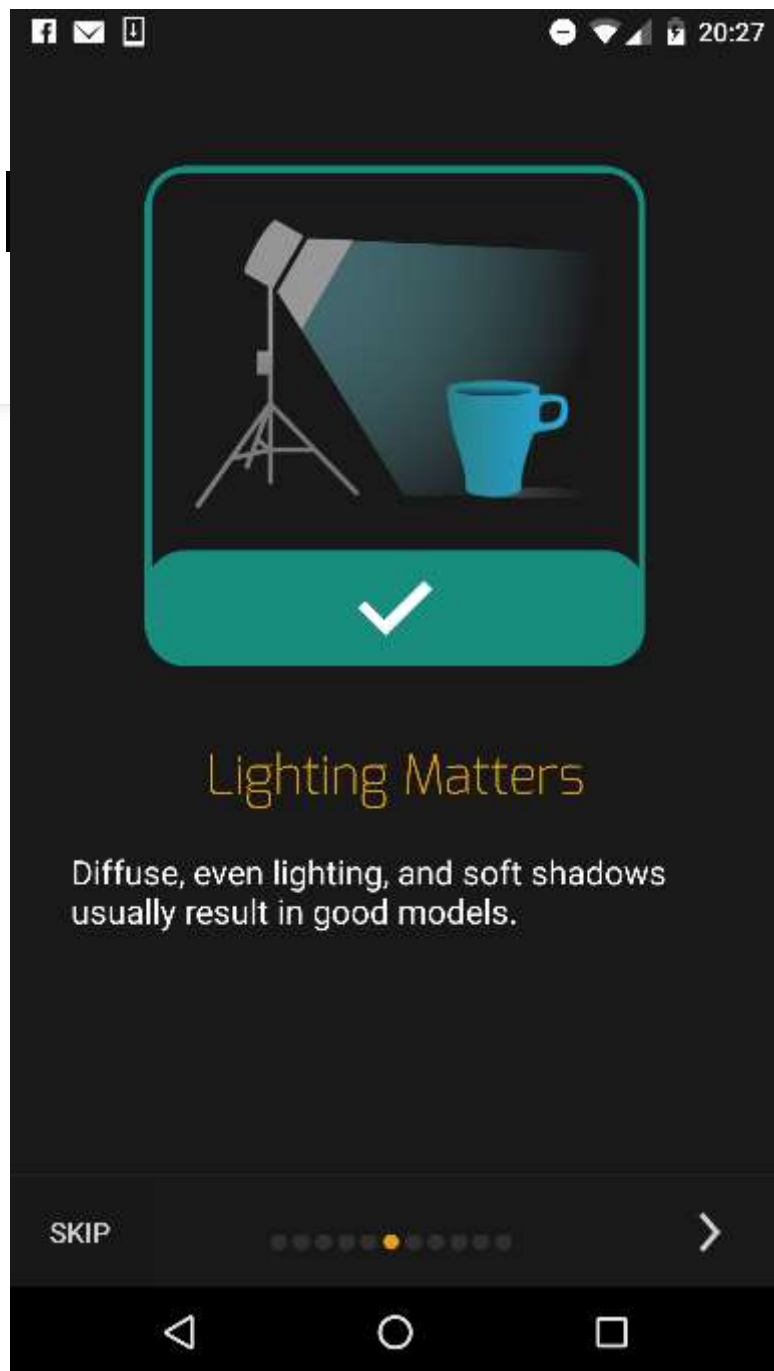

- Soft Flat Lighting
- Camera on fixed manual settings
  - Mobile phone (Pro settings Android, 3rd party app IOS - ProCam6, VSCO)
  - Narrow aperture (higher f-number, f/)
  - Low ISO
  - Long exposure
  - Fixed white balance
- Use a tripod for stability

# Camera Set Up

Se

- Fill the frame with the object
- Overlap the photographs 30%
- Shoot 360 degree circuits
- Shoot three circuits
  - horizontal
  - above
  - below

# Shoot

- Set of photographs after shooting
- Remove bad or duplicate photos
- Mask if needed (in 3D software, or another ie. Photoshop)
- Save all photos for future re-use

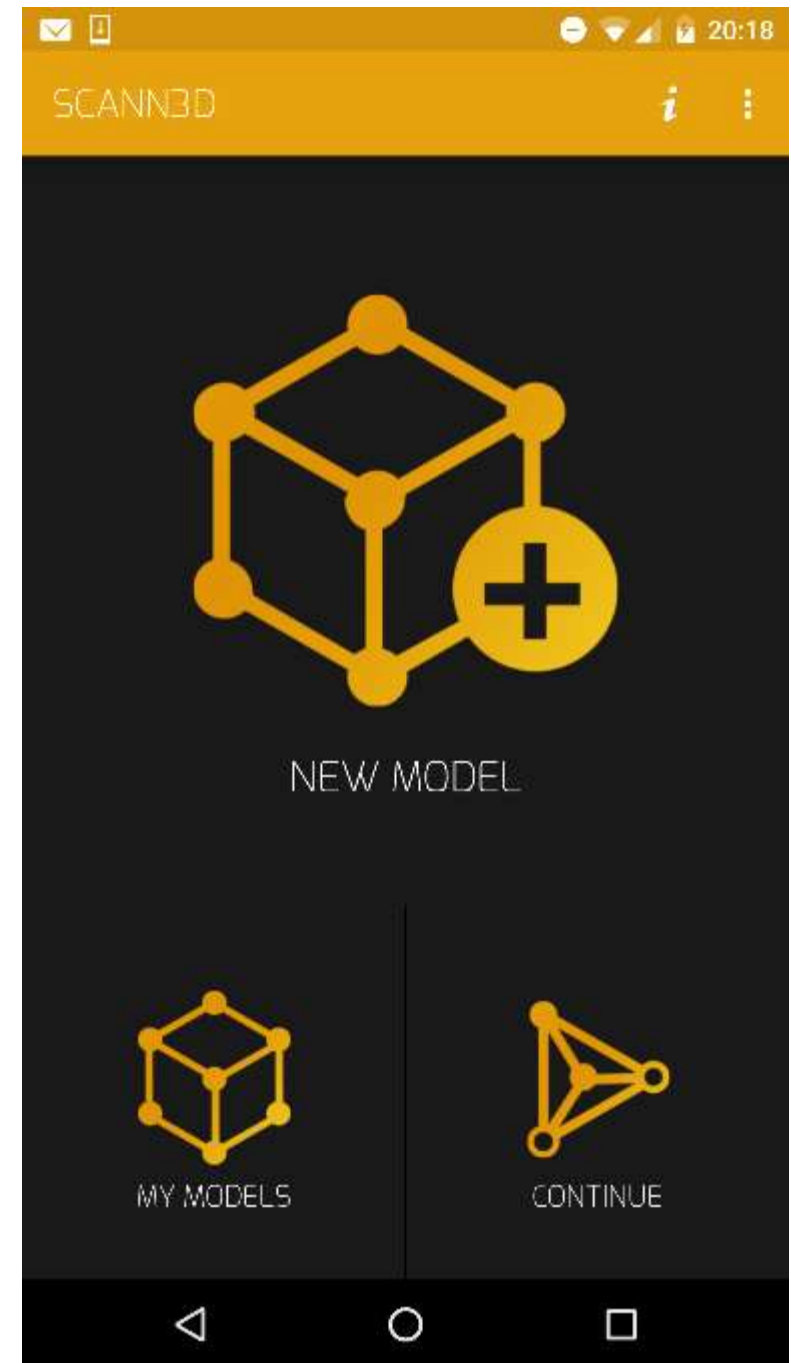

## Process Photos

# 3D Scanning Mobile Apps

- Trnio
- Qlone
- Scandy Pro
- Sony 3D Creator
- SCANN3D

# Overview

- Communicating heritage
- Setting up a desktop studio
- Photogrammetry workflow
- **Software processing**
- Metadata and Archiving
- Making Digital Galleries
- Social Archiving and Social Media

# Processing artefacts

- Select and sort images
- Align photos (mask or unmasked)
- Create a sparse points cloud
- Create a dense points cloud
- (Export to Meshlab if in Visual SFM)
- Trim dense point cloud
- Create mesh
- Apply textures

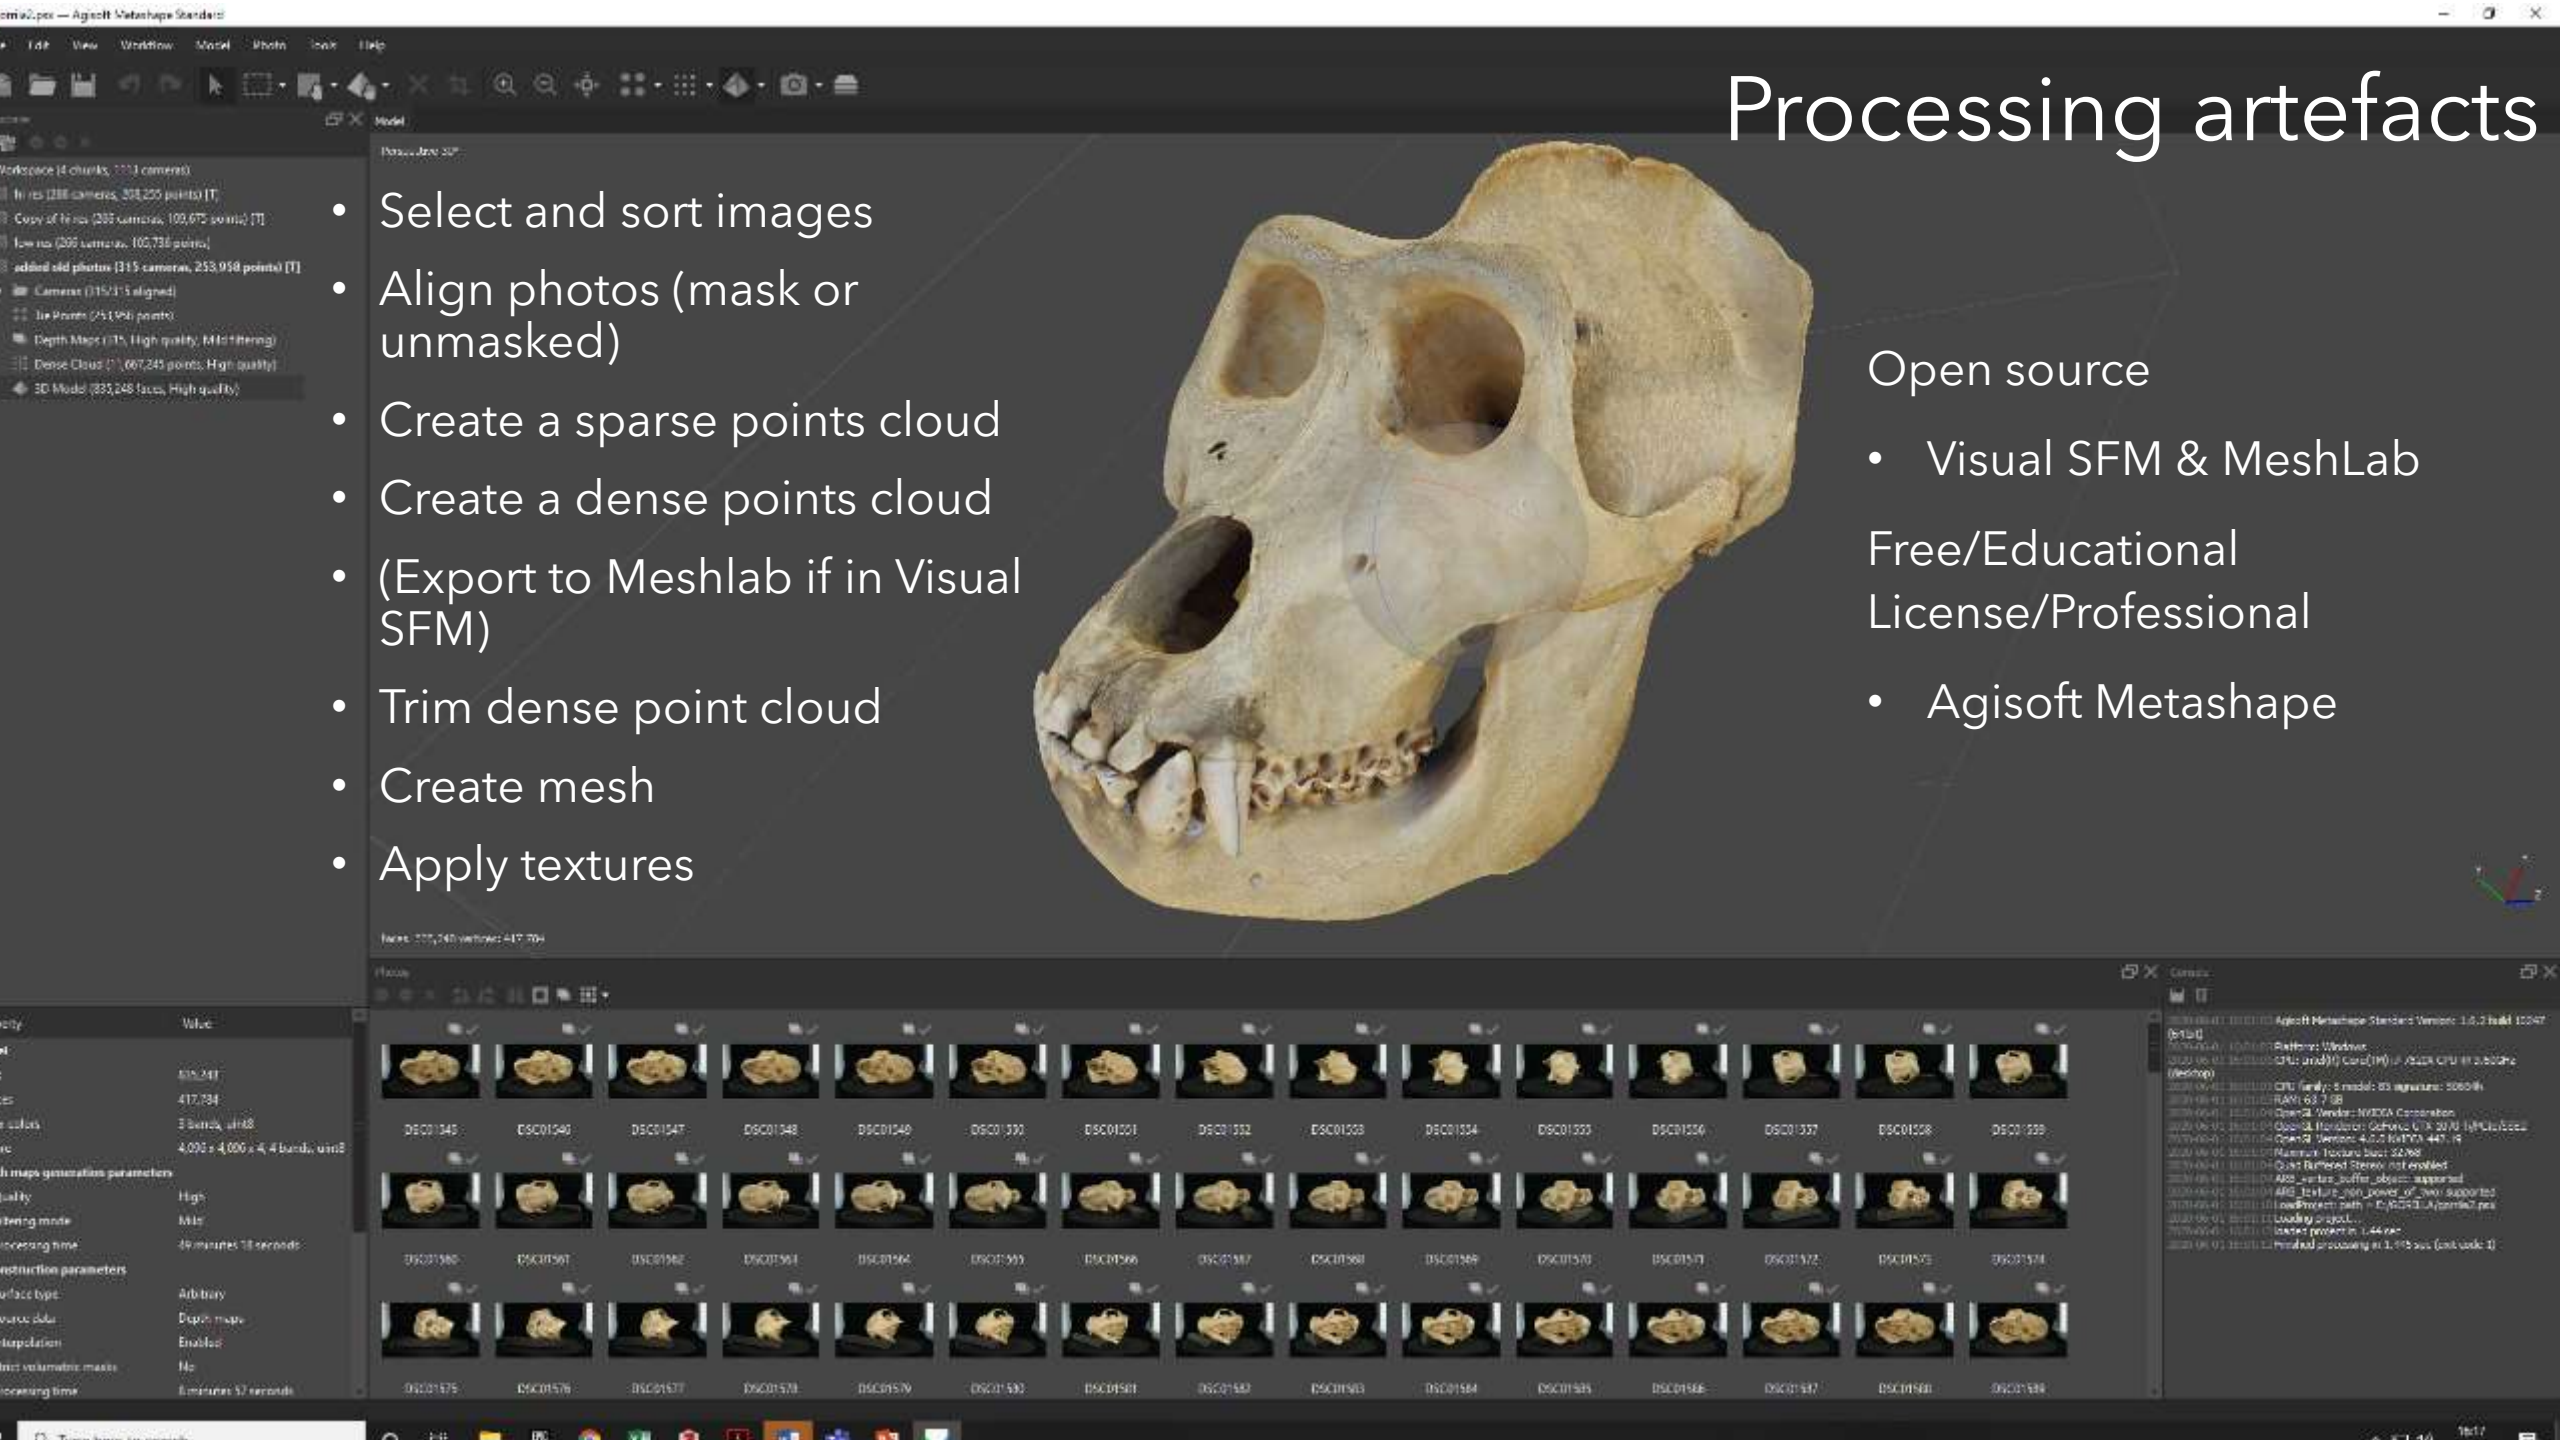

Open source

- Visual SFM & MeshLab

Free/Educational  
License/Professional

- Agisoft Metashape

# Processing: artefacts with Visual SFM & Meshlab

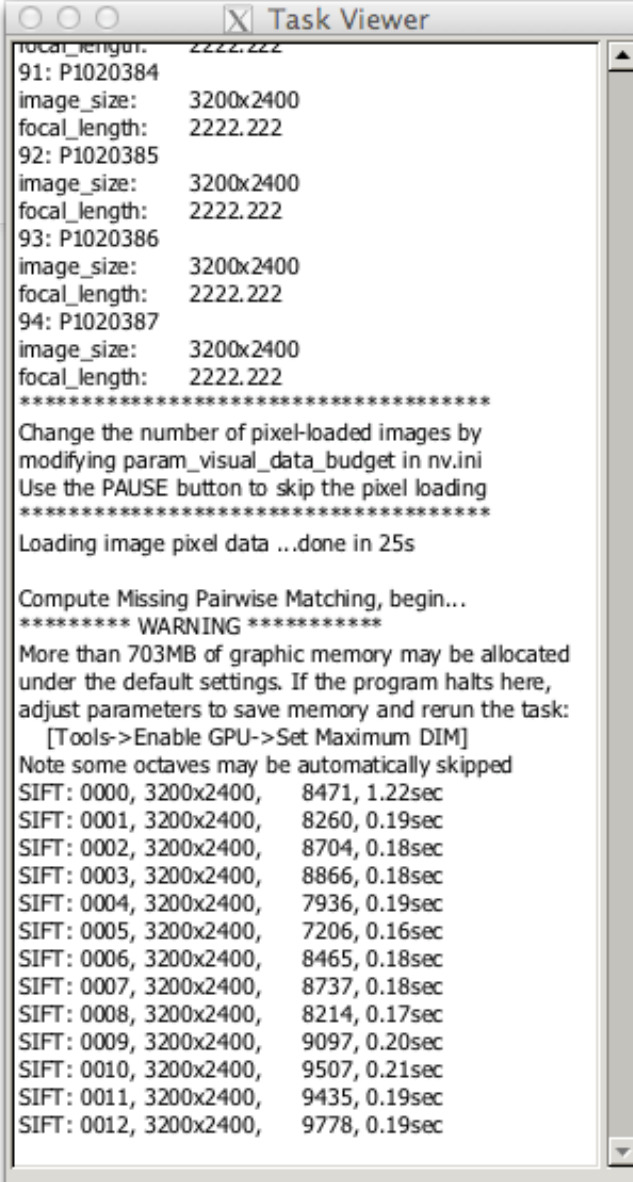

- Download Select and import pictures
- Remove bad pictures
- Ensure complete coverage and overlap
- 60-100 should be plenty, depending on object structure
- Lower resolution images (1280\*980) may work better

# Processing: artefacts with Visual SFM and Meshlab

- Sift and match
- Create a Sparse points cloud
  - Check and remove bad camera locations
- Create a Dense points cloud

Add an Item Type

| Type Name                            | Description   | Total Items |
|--------------------------------------|---|-------------|
| <a href="#">Text</a><br>Edit         | A resource consisting primarily of words for reading. Examples include books, letters, dissertations, poems, newspapers, articles, archives of mailing lists. Note that facsimiles or images of texts are still of the genre Text.  | 0           |
| <a href="#">Moving Image</a><br>Edit | A series of visual representations imparting an impression of motion when shown in succession. Examples include animations, movies, television programs, videos, zoetropes, or visual output from a simulation.   | 0           |
| <a href="#">Oral History</a><br>Edit | A resource containing historical information obtained in interviews with persons having firsthand knowledge.  | 0           |
| <a href="#">Sound</a><br>Edit        | A resource primarily intended to be heard. Examples include a music playback file format, an audio compact disc, and recorded speech or sounds.   | 0           |
| <a href="#">Still Image</a><br>Edit  | A static visual representation. Examples include paintings, drawings, graphic designs, plans and maps. Recommended best practice is to assign the type Text to images of textual materials.   | 0           |
| <a href="#">Website</a><br>Edit      | A resource comprising of a web page or web pages and all related assets ( such as images, sound and video files, etc. ).  | 0           |
| <a href="#">Event</a><br>Edit        | A non-persistent, time-based occurrence. Metadata for an event provides descriptive information that is the basis for discovery of the purpose, location, duration, and responsible agents associated with an event. Examples include an exhibition, webcast, conference, workshop, open day, | 0           |

# Archiving

- Archive high definition model
- Where possible include original photographs
  - This will future proof the artefact and enable it to be used in future platforms
  - Use for 2D digital collections
- Make accessible through upload:
  - SketchFab
- Include metadata in particular location

Taigh Chearsabhaigh Museum & Arts Centre is the arts and heritage centre for the Uists. Throughout the year we have visual art exhibitions, poetry and literary events, traditional music events and small festivals. We host world class contemporary art exhibitions, we have an award winning museum, we work with local and international artists, academics and writers. We also have a strong and growing specialism in film.

Taigh Chearsabhaigh sits on the solid rock overlooking the tidal bay that is Lochmaddy (Loch nam Madadh - the Loch of the Dogs). Our organisation is community focused, offering a stimulating and dynamic cultural programme of activities all year round for the people of Uist and visitors. We are proud of our reputation as a haven for visitors and creative practitioners.
