Sustainable growth

Our strategic approach is founded on maximising the opportunities presented by the unique natural capital of the Highlands and Islands and our cultural heritage. In seeking to deliver benefits in every part of our region, we pursue opportunities that have the potential to sustainably deliver significant economic and social impacts. These impacts extend well beyond our borders and contribute strongly to the purpose and vision set out in the Scottish Government's policy frameworks and to Scotland's position on the world stage.

We want the Highlands and Islands to be a highly successful, inclusive and prosperous region in which increasing numbers of people choose to live, work, study and invest. People and place are at the heart of our strategy and our vision can only be achieved through supporting inclusive growth and having a strong regional perspective.

We are ambitious for all parts of our region to sustain and develop a vibrant rural economy based on:

- successful, productive and resilient businesses
- · strong, capable and resourceful communities, and
- a region which is well-connected and well-placed to maximise opportunities creating the conditions for growth.

We will:

- contribute significantly to Scotland's economic development through our leadership, expertise and influence
- combine our efforts and resources to deliver successful outcomes with our partners
- push boundaries be bold and pro-active, demonstrating leadership and piloting new approaches, and
- have an active commitment to Fair Work First.

Efficiency, effectiveness and economy

HIE is constantly engaged in identifying opportunities to increase efficiency, lower costs and improve service quality. In ensuring Block B (HIE's management and administration budget) remains on target, costs must be contained, and inflation absorbed.

HIE actively looks to make the best use of space available in its offices and is working on a number of accommodation agreements with public sector organisations. In addition, as lease expiry dates approach, we are complying with Scottish Government policy on floor space and energy efficiency as we consider whether to extend the lease or seek new premises that deliver best value.

The move to Alexander Ross House in Fort William has resulted in substantial savings on our premises costs and also improve our carbon impact. We have reduced our occupied floor space from 335m2 down to 101m2. On-site storage has also been reduced. A further co – location has been worked on in 2018/19 that we expect will come to fruition in November 2019, resulting in significant space and cost savings.

Following the demise of Carillion HIE has reviewed its provision of facilities management in our Inverness office. During 2018/19 the delivery plan was formed and contracts awarded that have resulted in significant savings for HIE and other organisations that occupy the same building. These savings will be delivered from 1st April 2019.

Staff travel is a significant cost for HIE, especially given the geography of our region. However, this is mitigated by having a central travel team which makes all bookings, having a policy of only booking standard class and seeking to rationalise travel. To this end we are making use of Skype for Business rather than staff travelling for internal meetings. We have held two 'All Staff Strategy' events using Skype, where different presentations were led by directors in locations throughout the region.

HIE have committed to stringent vacancy and recruitment management and continue to generate recyclable savings through lower staff replacement costs and the regrading of posts. These savings not only contribute to the costs of HIE's pay award but also help to free up capacity to bring in different skill sets and capability to deliver HIE's strategic plan.

HIE is actively putting contracts in place to ensure best value, clear service level agreements (SLAs) and improved quality. Where possible central frameworks are utilised to save duplication of effort and achieve best value.
