

WICK BUSINESS PARK PHASE 2

Proposed buildings

The plans include a mix of building sizes and types to suit different business needs.

Most plots would accommodate standard units of 600–700m², while smaller units of 70–125m² and larger ones of up to 1,000m² would also be available.

These spaces are suitable for office use, light industrial operations and storage. Phase 1 already includes smaller units totalling 750m², and we're aiming for up to 12,500m² of floorspace across Phase 2.
